Azure Multi-Region Fintech Architecture — Overview

Dark■ Systems | Cloud Architecture Portfolio

Enterprise-grade Azure reference implementation for a multi-region, compliance-focused fintech platform.

Highlights:
- Azure Front Door (WAF) for global routing and protection
- App Service Premium active/active
- Azure SQL Failover Group for cross-region HA
- Private Endpoints, Managed Identity, Key Vault
- Azure Policy for governance; Monitor + Log Analytics for ops
- Terraform IaC (modular, remote backend)
